Detailed description of project						Type of services provided		
<p>The assignment is part of the AfDB TVET for Relevant Skills Development Phase II Project, component 1 designed to improve Access, Quality and Relevance of TVET. This component will mainly support completion of works and supply of equipment for TTIs targeted under Phase 1; support training of TVET tutors in engineering and applied programs as well as ICT. This component will support 3000 target youth training in relevant TVET programs for the labour market, develop TVET gender mainstreaming guidelines and manuals to reach out to girls; support consultancy for works supervision; carry out tracer studies and surveys; develop a TVET sub-sector information system, and support operationalization of the new TVETA.</p> <p>The reform to competency assessment and training requires specialized institutions and coordination. In order to make TVET programmes market driven and to address the needs of the workplace and the promotion of self-employment, competency based curricula is required, for which the development of occupational standards (together with industry) is crucial. Furthermore, the occupational standards will need to become available to the institutions and public, through an interactive website, portal and national database. Therefore, the consultant will;</p> <ul style="list-style-type: none"> <li>• Develop occupational standards/ job profiles for 7 occupational areas</li> <li>• Develop an interactive website and portal and set up a national database</li> <li>• Develop competency based curricula and learning guides for the 7 occupational standards</li> </ul>						<p>Cadena as lead firm is responsible for overall project management and coordination as well as for the implementation of the technical assistance components, covering;</p> <ul style="list-style-type: none"> <li>✓ Detailed planning and inception</li> <li>✓ Provide DACUM Facilitators training to CDACC staff</li> <li>✓ Establish Sector Skills Advisory Committees (SSACs)</li> <li>✓ Development of occupational standards/ job profiles for the 7 occupational areas provided</li> <li>✓ Develop website and portal, set up national data base</li> <li>✓ Develop Competency Based Education &amp; Training (CBET) curricula and learning guides for the 7 occupational standards</li> <li>✓ Dissemination of results</li> </ul>
